G-RGB113S
Hydraulic Barrier Gate

Easy Maintenance

Auto Reverse on Obstacle

Traffic Light Interface

Strong Machine Core

G-RGB-113S is designed for car park using innovative technology and manufactured with precision machinery to guarantee satisfaction in quality and reliability for years to come.

Lab tested for more than 5 millions opening / closing and still without any degrade in performance. No limit switch design minimizes mechanical wear and enhances barrier life time.

Technical Specification

Unit Model	G-RGB113S
Operation Time	0.6s, 1s, 1.8s, 3s, 6s. Customized
Arm Type	Straight and Fence
Arm Length	6 Meter
Spring and Bearing	Heat Treatment : More Durable
Rating Power	80W
Rating Voltage	AC 220V/110V±10%, 50/60Hz
Remote Control Distance	≥30 Meter
Time tested	5 Million times through operation testing

Dimension (mm)

330mm

940mm

330mm
